Other Skills:

Summary

- Self-independent, reliable and friendly individual who works hard to achieve his goals.
- Adapts quickly, and well organized. Interested in learning the latest web & software technologies quickly.
- Able to work well in teams as well as individually. My future goal is to become a senior full-stack developer.

Education

Harvard CS50 Course
- A broad and robust understanding of computer science and programming
- Familiarity with a number of languages, including C, Python, SQL, and JavaScript plus CSS and HTML.
- How to think algorithmically and solve programming problems efficiently

UC Davis Coding Bootcamp
- Learned the basics of Web development in a more robust manner (HTML, CSS, JavaScript, jQuery).
- Working with databases and connecting the front end with the back end. (deploying both live to get a working site)
- Learned about MVC, React, Express, GraphQL, MongoDB, MySQL with multiple projects to get a better understanding of how they are used.

Projects

Tip- Grow
Oct 2022 - Jan 2023
- First Web Site Ever!! (CS50 Final) (Why did I just jump into Next.js... IDK)
- Used react libraries and Next Auth with supabase as the database.
- Tip Tracker site that allowed you to enter your given tips on a day for a specific time period and will calculate some data for you to see about you tip income.

JS-Notebooks
Jul 2023 - Now
- A Note Documentation/Organization tool for (developers, artists, organizers...) That allows developers to add code blocks that have autocomplete and runtime errors so that they can run the code right next to the documentation. (Using eraser.io as a layout/main example)
- Using Lexical As a rich text editor for the notes side and Using the Excalidraw API in order to have a canvas that is tied to the note.
- Edit either The notes or the canvas or both at the same time.
- Live Collaboration with your teammates to allow maximum efficiency

Additional Activities

- Self-independent, reliable and friendly individual who works hard to achieve his goals.
